SUBJECT: STOP genetic eng. of food/Label genetically engineered foods

[Message]

Dear Mr. President,

I am very concerned that I am eating genetically engineered foods without being told that fact. I am writing to insist that legislation be passed into law that will require genetically engineered foods to be labeled as such, regardless of whether the food is in its whole form or as an ingredient in processed food. Similar legislation has already been passed in Europe and Australia. Please stop giving all the power to corporations such as Monsanto. Citizens have the right to know what is being done to our food.

Sincerely,
Sheila Lamb
